

Worldwide vision

The only conference and meetings magazine with a truly international realm

We've come a long way since we launched our bright young C+MW at IMEX Frankfurt in 2005. We identified the need for a publication embracing our truly international meetings business, and the reception we have

had all around the world encourages us to push our project forward on all fronts, including in our industry pioneering digital page-turning format.

We are proud of our strong links with international associations and regularly report the news and views from AIPC and ICCA, among others. Our aim is to provide the leading platform for the leading thinkers in the meetings industry.

C+MW is also a sister publication of the official UFI international publication, *Exhibition World*, and comes from the same stable that produces the successful UK titles *Conference News*, *Exhibition News*, *Exhibition Bulletin* and *Exhibiting*.

Of course, the meetings industry does not live in isolation from international business, politics and economics and, many of our key stories over the past year reflect the international news scene. We also rely on our readers to let us know how the big (and small) issues of the day affect them and their businesses.

Our pages are a place for venues to meet organisers and, in these times of economic troubles, a necessary meeting place for those seeking inspiration and ideas.

C+MW is not just a platform for exchanging news and views, but part of the meetings industry fabric, wedded to improving and lobbying the interests of

those who also consider themselves part of the worldwide meetings industry.

We don't just talk the talk, but walk the walk at our key industry trade shows and forums, so don't forget to look us up at the Mash Media stand and let us know what you think and tell us about your conferencing concerns.

Be part of our pioneering project. Have your say and influence the future direction of the meetings industry. We welcome you all aboard and extend our free subscription to all industry professionals. Just visit our website: www.c-mw.net or www.mash-media.net
